

Fact Sheet:

Choice of courses for exchange students: summer term 2020

You need to register for your courses by sending the form you received per e-mail to the helpdesk. International students have the opportunity to choose whole course units (*Module*) or single courses from a course unit. Choosing a course unit means that you have to participate in all related courses and the final examination. By choosing single courses, you get the opportunity to finish them with or without an examination. Please be aware of the fact that the ECTS-points you will receive for your participation differ among the options.

Options	ECTS -Points
1) Participation in an course unit (consisting of three courses) with examination	5/10 depending on the module
2) Participation in a single course without examination	3
3) Participation in a single course with examination	4

You will remark that you have to contact the teachers of the chosen courses to fill in the course registration form. At the current situation it is possible to replace the signature of the teachers by a confirmation e-mail of the teachers that has to be sent together with the form itself to the helpdesk. When contacting the lecturer ask them also to give you access to the digital course platforms.
